OSHA Docket
Docket No. H-122
Room N-2625
200 Constitution Avenue, NW
Washington, DC 20210

To whom it may concern:

Areas should be provided for smokers and nonsmokers. I want to have the choice to smoke. You are taking all our rights away. Little by little, we are losing everything. It is getting like Russia. I am against the proposed OSHA regulation.

OSHA should concentrate on safety in the workplace. Everyone should respect other people's rights.

Sincerely,

Florence Brady
